Besides her husband, she is survived by one daughter, Mrs. Kenneth (Inez) Gordon, Calgary; one son, Harvey, Regina; four grandchildren; two sisters, Mrs. Mary Scotland, New Liskeard, Ont., and Miss Charlotte Downey, Wellwood, Man.; three brothers, Harvey and George Downey, both of Wellwood, and Irwin Downey of Carberry, Manitoba.

The Vulcan Funeral Home was in charge of arrangements.

County Approves Plans, Calls For Office Tenders

COUNTY COUNCIL MEETING

Final plans and specifications for the proposed addition to the County of Vulcan office were presented and discussed at the October meeting of the County Council, held Oct. 14. Morris Kerr of Stevenson & Partners, architects for the addition, was present.

The plans as presented were adopted by council and the architects were instructed to advertise for tenders, which will close in Calgary at noon on Nov. 4. The tenders will be opened at the council meeting to be held in Vulcan the afternoon of Nov. 4.

Reeve Jack Deltz presided at the meeting and all councillors were present.

Mr. Thuermer, chairman of the school committee, gave a report of the school activities for the past month and Mr. Bardock, superintendent, supplied detailed information in respect to the teaching staff. He noted that there had been 47 resignations of the 1965/66 teaching staff, and that it had been possible to engage new staff which was fortunate and it was gratifying to note that the staff is fairly well adjusted and the schools operating quite smoothly.

Mr. Bardock spoke of the regulations that he had recommended and these were being implemented. The regulations had to do with principals' reports and other information which was required to be supplied to the office at the end of each month, and other reports for the Department of Education.

The matter of the house which is being constructed under Woodworking 30 class at County Central High School was discussed, and it was decided that the house be advertised for sale by tender as soon as it was ready.

After the luncheon adjournment, some 30 students from County Central High School, under the supervision of their teacher, W. P. Chandler, visited the council meeting and listened to the conduct of the business. Reeve Deltz welcomed the students and was happy to have them present to learn of the manner in which municipal business was conducted. The students attended the meeting for approximately 30 minutes, and before they retired, Miss McNiven, one of the students, thanked the Reeve and the members of the Council for their courtesy in having the students present, and she felt that the visit had been worthwhile as the students had obtained a great deal of information and instruction from the visit. Mr. Chandler also thanked the council for their co-operation in this regard.

By-Law No. 573, a by-law of the County of Vulcan No. 2 to amend By-Law No. 441, to provide for the erection of "No Parking" signs was introduced, read and passed first and second readings.

The councillors refused to give unanimous consent to read the by-law the third time at the present time, and the third reading was left until the next meeting.

It was moved and carried that the municipal committee look into the matter of providing a parking place on the causeway at Lake McGregor crossing.

Robert Petersen of Hedlin, Menzies & Associates, the firm engaged to make the agricultural survey in the County of Vulcan, was present and introduced to the members of the council.

It was noted that the municipal act provided for the appointment of deputy-returning officers and enumerators to act in municipal elections. This matter was discussed, and it was felt that in the event elections were held, the reeve could make the appointments under the municipal act.

Mr. Haga, chairman of the municipal committee, reported to the councillors on the progress of highway construction, and it was noted that the paving was proceeding on the Milo road and it

was expected about five miles of the first course would be completed. There were about 12½ miles completed on the Vulcan-Lomond road.

It was moved and carried that the store at Travers, being Lot 17, Block 2, Plan 927 A.Y., and the old machine shed at Ensign, being Lots 1 and 2, Block 1, Plan 7271 A.G., be offered for sale by tender to close on Nov. 4.

SCHOOL

COMMITTEE MEETING

Chairman F. N. Thuermer presided at the school committee meeting held Oct. 11 and all members were present.

The secretary-treasurer read a letter from the Alberta School Trustees Association in respect to the matter now being considered, that is, the turning over of evaluation to the Department of Education. It was pointed out that the

Success! That's the word from the CCHS football team. The team returned the trophy to CCHS for the second year in a row. The team, under coach Mr. Beggs, defeated High River 21 to 12; and then defeated Okotoks 13 to 5. High scorers were Brian Leback and Richard Hegland. The invitational tournament was held at High River on Saturday.

According to the coach, Mr. Beggs, "We were extremely penalized because of practising bodily contact but we played good, tough football which was good to watch. The game against the men (played Sunday and won by CCHS 34 to 0) indicates what happens when we play our own style."

The Hard-Times Dance, held on Friday, Oct. 21, was a huge success. It was well organized under social conveners Jack Koster and Carol Wellman. The highlight of the evening was the introduction of the go-go girls—Carol Jepps, Carol Wellman, Lynda Dann, Susie Fleming, and Brenda Christensen. A humorous sidelight was the introduction of Jack Koster and Richard McNiven portraying two go-go girls (mini-dresses and long black hair). All in all everyone had lots of fun.

This concludes this week's report and, on behalf of all students, I would like to wish all volleyballers a change of fortune and hope they can get rid of their bad luck.

Recreation Centre's Community Auction Set For Saturday

A steadily growing list of items is coming in for this Saturday's Community Auction being staged by the Vulcan District Recreation Centre committee. Heading this project is Vulcan auctioneer Wally Franks who with auctioneer Tom Ruggles, will call the sale at the Vulcan Armouries starting at 1 p.m.

Alice Scales was first donor registered with an offer of about 350 bushels of oats and since that time there have been donations of more grain, cars, a good range of farm machinery, furniture, two buffalo rugs, new and used wearables for men, women and children, a side of pork, five 100-pound bags of sugar and two T-bone steak dinners and two Chinese dinners.

In addition to many private donors a partial list of business participants follows: Vulcan Electric, IGA, Wolfe's Hardware, Jordan's AG Foods, Marganna Kennels, Dakin Hardware, Royal Cafe, Vulcan Flour Mill, Noble Blade Sales and Service, Richardson & Gould Ltd., Willard Equipment, McAskie's Men's and Boys' Wear, Robinsons Stores, Wheat Centre Motors Ltd., Jesse Farm Equipment Ltd., Betty Ann Shoppe.

A truck delivery service is planned for Friday and Saturday whereby any would-be donors unable to bring their items to the sale may have them picked up at their homes by phoning 485-2781.

In other business of the recreation group a supper meeting, Oct. 19, at the Vulcan Hotel banquet room, attended by 38 members and interested persons, heard of plans by the Centre of seeking new land on which to establish the proposed recreation complex. The site on the Armouries block previously considered, has been described as much too small by outside authorities who feel a ten-acre area is the minimum for long range planning. Centre president Dr. Everett Hill and Leonard Voisey reported on their meeting with W. Hartley of the Old Man River Planning Commission at Lethbridge on Oct. 17, when they discussed other possible sites for the project. Mr. Hartley paid a return visit to Vulcan last Friday on the same subject.

A suggestion that the Centre committee organize a "Next-to-new" shop as another money raising venture was discussed. This shop would be run two days a week with volunteer help and persons wishing to help the Recreation cause could donate clothing in good repair for resale.

Guild Meets New Anglican Rector

The Anglican Ladies Guild met in the church hall Oct. 19, at which time the new rector, the Rev. Ted Clarke, who is priest-in-charge of the Wheatbelt Mission, was present.

Saturday, Dec. 3, was the date set for the annual Christmas tea-bazaar which will be held in the church basement. A beautiful walking doll, complete with wardrobe will be raffled on this day. The doll is to be displayed in Robinson Store window.

The next guild meeting will be held Nov. 23, in the church hall with Mrs. Laycock as hostess. At the close of the meeting a social hour was spent while a delicious lunch was served by Mrs. Art Fitzpatrick.

Pioneer Rancher, George Todd, Dies At Age 83

Funeral services were held from the Vulcan United church, Friday, October 21, 1966, for George Todd, age 83 years. Mr. Todd, one of the early pioneers of this district, passed away suddenly at his home in Calgary, October 18.

Rev. W. Dormer officiated at the service, with members of the Odd-fellows Lodge taking part in the graveside services at the local cemetery.

George came from Port Perry, Ont., in 1903, taking up land 25 miles east of Nanton, which he converted into a ranch. He was one of the early veterinarians, travelling many miles to care for sick stock and as brand reader. Later he farmed in both the Kirkcaldy and Red Cross districts. He moved to Calgary eight years ago, but continued to carry on his farming interests until 1965. He was a charter member of Vulcan L.O.O.F. lodge and was active in community work.

Surviving are his wife, Amy, in Calgary; three brothers, Robert of Vulcan, Henry of Lethbridge and Cliff in California. There are also three sisters; Cora, of Woodville, Ont., and Isobel of Toronto and Ella of Lorne Park.

Youth Collections To Aid UNICEF

UNICEF, the United Nations International Emergency Fund, is a "Children's Crusade" and this year the Explorers of the United Church will assist by collecting pennies and nickels for needy boys and girls.

The objectives of UNICEF are to conquer hunger, disease and ignorance among the world's 600 million children. To sick and suffering children UNICEF funds bring drugs, insecticides, vaccines and provide health centres where care can be given and methods of hygiene and prevention of disease can be taught.

The work of nutrition includes aid to such UNICEF projects as providing food for children and pasteurization and distribution of milk. Their families are encouraged to begin garden plots where good nourishing food for the whole family can be produced.

On Halloween, Oct. 31, welcome the UNICEF goblins at your door. Your pennies will go a long way. If they do not call, Miss Nancy Montgomery or Mrs. Lawrence Richardson, leaders of the Explorer group, will receive your pennies and see that they get to UNICEF.

November Is Rent-Free At Vulcan Library

November will be "rent-free" month at the Vulcan Library. At a meeting of the Municipal Library Board, Thursday, Oct. 20, chaired by Mayor Gerry Ness, this decision was made to attempt to get many overdue books back into circulation. Checking library records it was found many patrons have books out on which considerable fines are due. These can be returned next month fine-free.

A new librarian, Mrs. Ray Sailer, has been engaged since last summer, replacing Mrs. Mel. Sumner and a busy winter book season is anticipated.

TERRY BURNAT,
Jenner

Alberta Junior Citizen of the Year.

Remember those good old carefree teenage days? But being a teenager means anything but a carefree life for 16-year old Terry Burnat. Just before Christmas her mother was killed, and her father injured in a car accident. Since that time she has taken over the management and operation of her farm home, including the supervision and training of her two brothers, 13-year old Teddy and 11-year old Timothy. She attends school in Medicine Hat, but each weekend comes home to do the washing, ironing, cleaning and cooking. Despite this heavy load of responsibility,

Terry has done well in school and was an Efficiency Winner in the Jenner 4-H Beef Calf Club.

We congratulate Terry and wish to thank Alberta's Weekly Newspaper Editors for their active co-operation in the Alberta Junior Citizen of the Year program, sponsored by Alberta's investor-owned electric utility companies.

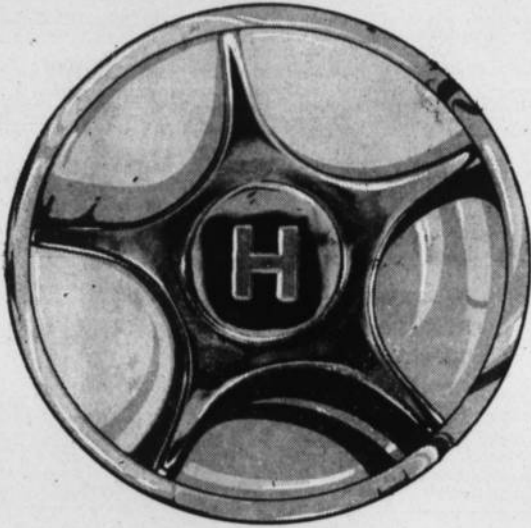

This is one of a series of Junior Citizen Award announcements. Our special thanks to J. L. Nesbitt, Editor of the Brooks Bulletin, and to Terry's nominator, Norma Jean Gray of Brooks.

CENTENNIAL PROJECTS

VERY MUCH ALIVE

All Carmangay and district will be relieved to hear that they can now answer "Yes" to their children's frantic question regarding the resurrection of their skating rink. Some months back a new rink and a park playground was the chosen and approved plan of the local Cenn. committee. At that time a work bee was held and the fence around the old rink was torn down. Since that time, due to other commitments nothing visible had

been done to replace it. However, in spite of what the children thought, members of the committee have been busy getting estimates, promises of help and many other jobs done in preparation of their dream becoming a reality.

A meeting of the Cenn. committee and interested citizens was held in the Village office Oct. 24 and many problems were discussed and ironed out. Lawrence Myggland, administrator of Little Bow Hospital was asked to accept the position of secretary of the Cenn. committee and graciously agreed to do so. Plans were made for the land to be measured and levelled, lumber and material were to be ordered and all this is to get underway in the next few days.

It was decided to fence in the Park playground area and as some steel fencing is available in the town this will be put into use. Mayor Ben Brown was invited to attend the meeting but was unable to do so. However, councillor Glen McFarland was present and offered some helpful advice. Councillor elect, Hubert Plourd was also present.

In order to make these projects a success, everyone in the village of Carmangay and district is going to have to pull their share of the load. The aim of the Cenn. project committee is to involve as many people as possible. This is not just something that is being done for you by a group of Centennial committee members! There is a lot to be done by everyone and we hope you will be eager and willing to do your share. Does it really matter if there happens to be someone on the Centennial committee that you don't care for? Are you going to deprive yourself of the feeling of pride and accomplishment in doing something for your community and your country because you have some personal petty grievance? I hope not! I do not think any of us will be around to help Canada celebrate her next 100th birthday, so now when we have a chance, let's pitch in and say a real happy 100th birthday, Canada, and add beauty and improvement to our village at the same time. Don't wait to be asked! Everyone is needed! Volunteer your services now!

A meeting is to be held Monday, Nov. 7th at 8 p.m. in the village office. Everyone is welcome to attend and it is hoped that you plan to be there.

Mrs. Barbara Hwozdecki, Centennial Committee Chairman.

The committee discussed the small house which is being built by the Woodworking 30 class in Vulcan as a project, and noted that the house is not nearly finished. It was suggested that a letter be sent to the principal advising that the siding on the house be completed and painted, and that no further work be done on the inside. It was the intention of the committee to offer the house for sale by tender as soon as it would be available.

It was moved and carried that the committee approve expenditure for paving the portion of the street adjacent to County Central High School, and the extra 12x400', and that the driveway be also paved at \$120 per square yard, the county to haul the gravel.

Buick presents the '67 version of the tuned car. New styling, new power, new overall performance... logical steps in the evolution of a great engineering concept. "Tuned car" means more than pure mechanical performance. It means the whole car. Styling, performance, ride and handling. All in perfect harmony.

There's a Buick exactly in tune with you—Riviera, Electra 225, Wildcat, LeSabre, Skylark and Special Deluxe. Choose one at your Buick dealer's.

Here are a few of the many standard safety features incorporated in all '67 Buicks: dual master cylinder brake system with warning light; energy absorbing steering wheel; GM-developed energy absorbing steering column; passenger-guard door locks—all doors; four-way hazard warning flasher; soft low profile window control knobs.

SUN LIFE OF CANADA

Have you ever wondered...

...what happens to government materials and machinery when they reach pensionable age?

Three possible fates await furniture and equipment that have outlived their usefulness to a government department: retirement, transfer and the auction block. Which it will be is decided by the Alberta Commercial Branch, Department of Industry and Development. Last year, in a series of bargain sales, this agency recovered over \$400,000 for a selection of items varying from horses to windows, tractors to furniture, which were still usable but no longer of

...how far you are from a provincial park?

In most populated areas of Alberta, not more than 50 miles. As public need dictates the location of the parks, the majority are located in or near heavily populated areas and, as the population increases, so do the number of parks. Altogether, there are 41 of these playgrounds in the Province, each established and maintained by the Parks Division of the Alberta Department of Lands and Forests. It takes a staff of 300 employees to provide the parks with all the facilities and services required, such as approximately 1600 cords of cut wood supplied free each year. In addition, the Parks Division maintains 23 historic sites across the Province, ranging in size from one-quarter acre to 107 acres.

...how bridges add to Alberta's beauty?

Next time you drive Alberta's highways, watch the bridges and overpasses and see how many different designs you can count. This variety of shape and color is a contribution to the beauty of our Province by the Bridge

Branch of the Alberta Department of Highways. Each year, this Branch builds or rebuilds approximately 400 bridges, and each of the major ones is a part of the program to add to the interest and appearance of Alberta's highways by using varying designs, colors and materials. There are approximately 10,000 bridges under the jurisdiction of the Branch, of which about 700 are steel, 2,200 concrete, 4,300 of timber, and 2,800 large culverts installed in lieu of bridges.

...what a high speed digital computer is doing down on the farm?

Actually, it isn't ON the farm. It's a part of the Data Processing Centre of the Provincial Government.

However, it does contribute greatly to a comprehensive farm analysis program being undertaken by the Farm Management Branch of the Agricultural Economics Division, Alberta Department of Agriculture. Under this program, the Branch assists any

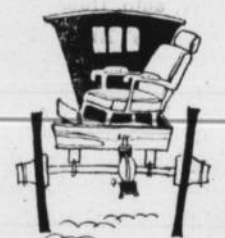

farmer who so desires to maintain an accurate record of his physical and financial operation. Armed with these figures (this is where the computer comes in), economists can measure the efficiency of the farm, determine the problem areas and suggest possible solutions. Over 400 commercial farmers in Alberta are being assisted under the program, and the only costs to each participant are a \$10.00 processing fee and \$1.00 for the account-book in which the records are kept.

...how education can be made more interesting?

Aesop taught many a valuable lesson with his "Fables", because he knew that education was far more palatable when it was presented in a dramatic form. Today's version of this combination is in the radio and television broadcasts to schools by the Audio-Visual Services Branch of the Alberta Department of Education. Twice a day, during most of the school year, radio school broadcasts teach dramatic, entertaining and effective lessons in classrooms across the Province, and a number of television programs are provided each year as well. These have a two-fold purpose: to explore the value of television in education and to supplement classroom work on key subjects. In addition to the broadcast media, the Audio-Visual Services Branch provides sound films, tape recordings and filmstrips and advises teachers and administrators in their uses.

...what became of the old-fashioned, travelling dentist?

He's still here, still travelling, but no longer old-fashioned. Today, the dentist who provides service to the ordinary

areas of the Province has the most modern equipment, provided by the Dental Services Division of the Alberta Department of Public Health. This Division has three complete units of dental equipment which are transportable and available to those practitioners who volunteer to serve rural communities where dental services have not been established. Approved local organizations such as the Home and School Association or the Chamber of Commerce can apply for this service through the local health unit, the Alberta Department of Public Health, or the Alberta Dental Association.

Area Director Mrs. A. Anderson of Carmangay introduced her panel members Mrs. Sokvitne, Mrs. Korchinske and Mrs. F. Smith.

Some insist on Lethbridge Pilsner, several fine brews deftly blended in the Bavarian tradition. The best of barley, choice rice and our own home-grown hops give it the lively taste that appeals to Albertans. The unique label tells you it's Alberta's original Pilsner.

Others demand our Lethbridge lager — they call it 'bridge. This bright and bracing beer makes the most of its premium malt. The smooth, uniform taste is largely due to our own pure yeast and hops. Micro-filtered 'bridge is mellow, naturally-aged lager beer at its best!

Need a Grain Bin?

Here's food for thought . . .

WOODEN PORTABLE BINS BUILT BY PEERLESS WOOD HAVE SPECIAL ADVANTAGES OVER STEEL BINS.

- 1) They are portable. You can move them wherever you wish. If you don't want to farm for the rest of your life, a portable bin can be sold to anyone, anywhere. Steel bins, concrete base, stay with the farm.
- 2) Damp concrete floors often cause grain spoilage. Wood floors, with air space beneath, keep grain dry. The grain you save over a few years can pay the cost of a Peerless bin.

REMEMBER!

Buying a grain bin is like buying a bigger wallet to put your money in. Be glad you need it!
